Emerging Organic Contaminants and Nanomaterials in Food	1
Marinella Farré and Damià Barceló	
Pharmaceuticals in Drinking Water	47
Aleksandra Jelić, Mira Petrović, and Damià Barceló	
Sulfonamide Antibiotics in Natural and Treated Waters: Environmental and Human Health Risks	71
María Jesús García Galán, M. Silvia Díaz-Cruz, and Damià Barceló	
Drinking Water Disinfection By-products	93
Susan D. Richardson and Cristina Postigo	
Micro-pollutants in Hospital Effluent: Their Fate, Risk and Treatment Options	139
Paola Verlicchi, Alessio Galletti, Mira Petrovic, and Damià Barceló	
Antibiotic Resistance in Waste Water and Surface Water and Human Health Implications	173
Célia M. Manaia, Ivone Vaz-Moreira, and Olga C. Nunes	
Ecopharmacovigilance	213
L.J.G. Silva, C.M. Lino, L. Meisel, D. Barceló, and A. Pena	
Human Exposure and Health Risks to Emerging Organic Contaminants	243
Adrian Covaci, Tinne Geens, Laurence Roosens, Nadeem Ali, Nele Van den Eede, Alin C. Ionas, Govindan Malarvannan, and Alin C. Dirtu	
Occurrence of Phthalates and Their Metabolites in the Environment and Human Health Implications	307
Mario Antonio Fernández, Belén Gómara, and María José González	

Perfluorinated Compounds in Drinking Water, Food and Human Samples	337
Francisca Pérez, Marta Llorca, Marinella Farré, and Damià Barceló	
Fate and Risks of Polar Pesticides in Groundwater Samples of Catalonia	375
Marianne Köck-Schulmeyer, Antoni Ginebreda, Miren López de Alda, and Damià Barceló	
Zebrafish as a Vertebrate Model to Assess Sublethal Effects and Health Risks of Emerging Pollutants	395
Demetrio Raldúa, Carlos Barata, Marta Casado, Melissa Faria, José María Navas, Alba Olivares, Eva Oliveira, Sergi Pelayo, Benedicte Thienpont, and Benjamin Piña	
Disrupting Effects of Single and Combined Emerging Pollutants on Thyroid Gland Function	415
Demetrio Raldúa, Patrick J. Babin, Carlos Barata, and Benedicte Thienpont	
Psychoactive Substances in Airborne Particles in the Urban Environment	435
M. Viana, C. Postigo, C. Balducci, A. Cecinato, M. J. López de Alda, D. Barceló, B. Artíñano, P. López-Mahía, A. Alastuey, and X. Querol
