

Chiara Melloni

Event and Result Nominals

A Morpho-semantic Approach

Peter Lang

Contents

Acknowledgements.....	ix
Abbreviations and Marking Conventions.....	xiii
1 Aims and orientation.....	1
1.1 Stating the problem.....	1
1.1.1 Action/State Nominals	1
1.1.2 Semantic ambiguity: E and R nominals	3
1.1.3 Result or referential nominals?	5
1.1.4 General questions	7
1.2 Theoretical background	8
1.2.1 Lexical meaning is not (only) a pragmatic matter	8
1.2.2 Towards a lexical-semantic theory of word formation	10
1.3 Data and scope of the research	13
1.4 Outline	15
2 Generative approaches to nominalization.....	17
2.1 On the derivation of nominals	18
2.1.1 Transformationalist vs. lexicalist debate	18
2.1.1.1 Grimshaw's analysis and diagnostics	21
2.1.1.2 Criticism of Grimshaw's analysis.....	29
2.1.2 Neo-transformational approaches to nominalizations	34
2.1.2.1 The VP analysis: Borer's account of nominalizations	35
2.1.2.2 Criticism of Borer's accounts	41
2.1.3 Preliminary remarks and questions	44
2.2 Lexical semantics and nominalizations	46
2.2.1 Bierwisch's semantic templates	46
2.2.2 Dot-object nominals: Pustejovsky's (1995).....	51
2.2.2.1 Some notes on Pustejovsky's account	56
2.2.3 Asher (1993): Argument-transforming vs. argument-preserving nominals.....	60
2.3 Concluding remarks and questions.....	65

3	Suffixes and co-indexation	69
3.1	Introduction	69
3.2	Italian nominalizing suffixes:	
	formal and semantic properties	70
3.2.1	Formal and stylistic preferences of selection	71
3.2.2	Semantic ambiguity and competition among suffixes	74
3.3	The theoretical framework	77
3.3.1	Lieber's (2004) lexical semantic model	78
3.3.2	Previous analysis:	
	Lieber and Baayen's (1999) account.....	83
3.4	E nominalizing suffixes	88
3.4.1	Verbal Actionality: an issue of inheritance	88
3.4.1.1	Situation types.....	89
3.4.1.2	Actional properties of E nouns	94
3.4.2	The semantic contribution	
	of E suffixes in Lieber's model.....	102
3.4.3	Simple event nouns	105
3.5	R nominalizing suffixes.....	107
3.5.1	R nominals: a semantically heterogeneous class	108
3.5.1.1	Product.....	108
3.5.1.2	Means.....	111
3.5.1.3	Entity in State.....	112
3.5.1.4	Path and Measure.....	116
3.5.1.5	Sense Extensions.....	120
3.5.1.6	Summary	130
3.5.2	The semantic contribution	
	of R suffixes in Lieber's model.....	133
3.5.2.1	The situational character of R suffixes	136
3.5.2.2	Polysemy in the simple	
	and complex lexicon	140
3.5.3	More on the body of R nominals:	
	the Qualia Structure.....	146
3.6	Co-indexation	153
3.6.1	Co-indexation with E suffixes: the Event argument.....	156
3.6.2	Co-indexation with R suffixes:	
	beyond argument structure	159
3.7	Concluding remarks.....	164

4	Base verbs and semantic constraints.....	167
4.1	Introduction	167
4.2	On the representation of verb semantics	168
4.2.1	Pustejovsky's event structure.....	169
4.2.2	Rappaport Hovav and Levin: Templates and Roots	174
4.2.3	Telicity, incrementality and PATH nominals	177
4.2.4	Interim Summary	183
4.3	Towards a PRODUCT-oriented verb classification	184
4.3.1	Creation or result-object verbs	186
4.3.1.1	Verbs of creation or the <i>costruire</i> class.....	187
4.3.2	Semantic constraints and Qualia Structure	191
4.3.3	Creation verbs by representation and modification	196
4.3.3.1	Creation by representation.....	196
4.3.3.2	Creation by modification	203
4.3.4	Summary	208
4.3.5	Appendix: Other non-prototypical creation verbs.....	211
4.3.5.1	Verbs of assembling and combining.....	211
4.3.5.2	Speech act verbs.....	213
4.3.5.3	Mental action verbs.....	214
4.3.5.4	Verbs of emission	216
4.3.5.5	Verbs of appearance.....	217
4.4	Non PRODUCT-ive verbs	218
4.4.1	Activity verbs	220
4.4.2	Directed motion verbs and PATH reading.....	224
4.4.3	Non PRODUCT-ive change of state verbs.....	226
4.4.4	Consumption/destruction verbs.....	227
4.4.5	Summary	230
4.5	State verbs and entity in state nominals	231
4.5.1	Verbs of propositional attitude.....	232
4.5.2	Verbs of existence and spatial configuration	233
4.5.3	ENTITY IN STATE nominals and (non-)sentience	234
4.6	Concluding remarks.....	239
5	Verbal skeletons and co-indexation.....	241
5.1	Introduction	241
5.2	The skeleton of situations	242
5.2.1	Situations in Lieber's system	242

5.2.2	Implementing Lieber's taxonomy: D-Path arguments.....	249
5.2.3	... and Event Co-identification	252
5.2.4	The skeleton of situations in the present study	256
5.3	Co-indexation: Towards a formal representation.....	258
5.3.1	Co-indexation in E nominalizations	260
5.3.2	Co-indexation in R nominalizations.....	267
5.3.2.1	PRODUCT interpretation	268
5.3.2.2	Path interpretation.....	282
5.3.2.3	Entity in state interpretation.....	286
5.3.2.4	MEANS and PSYCH STIMULUS as ENTITIES IN STATE	288
5.4	Concluding remarks.....	296
6	Conclusion.....	299
	References.....	303
