

Contents

1	On the Policy Iteration Algorithm for Nondegenerate Controlled Diffusions Under the Ergodic Criterion	1
	Ari Arapostathis	
2	Discrete-Time Inventory Problems with Lead-Time and Order-Time Constraint	13
	Lankere Benkherouf and Alain Bensoussan	
3	Sample-Path Optimality in Average Markov Decision Chains Under a Double Lyapunov Function Condition	31
	Rolando Cavazos-Cadena and Raúl Montes-de-Oca	
4	Approximation of Infinite Horizon Discounted Cost Markov Decision Processes	59
	François Dufour and Tomás Prieto-Rumeau	
5	Reduction of Discounted Continuous-Time MDPs with Unbounded Jump and Reward Rates to Discrete-Time Total-Reward MDPs	77
	Eugene A. Feinberg	
6	Continuous-Time Controlled Jump Markov Processes on the Finite Horizon	99
	Mrinal K. Ghosh and Subhamay Saha	
7	Existence and Uniqueness of Solutions of SPDEs in Infinite Dimensions	111
	T.E. Govindan	
8	A Constrained Optimization Problem with Applications to Constrained MDPs	125
	Xianping Guo, Qingda Wei, and Junyu Zhang	

9	Optimal Execution of Derivatives: A Taylor Expansion Approach ...	151
	Gerardo Hernandez-del-Valle and Yuemeng Sun	
10	A Survey of Some Model-Based Methods for Global Optimization ..	157
	Jiaqiao Hu, Yongqiang Wang, Enlu Zhou, Michael C. Fu, and Steven I. Marcus	
11	Constrained Optimality for First Passage Criteria in Semi-Markov Decision Processes	181
	Yonghui Huang and Xianping Guo	
12	Infinite-Horizon Optimal Control Problems for Hybrid Switching Diffusions.....	203
	Héctor Jasso-Fuentes and George Yin	
13	Fluid Approximations to Markov Decision Processes with Local Transitions	225
	Alexey Piunovskiy and Yi Zhang	
14	Minimizing Ruin Probabilities by Reinsurance and Investment: A Markovian Decision Approach	239
	Rosario Romera and Wolfgang Runggaldier	
15	Estimation of the Optimality Deviation in Discounted Semi-Markov Control Models.....	253
	Luz del Carmen Rosas-Rosas	
16	Discrete Time Approximations of Continuous Time Finite Horizon Stopping Problems	265
	Lukasz Stettner	
17	A Direct Approach to the Solution of Optimal Multiple-Stopping Problems	283
	Richard H. Stockbridge and Chao Zhu	
18	On the Regularity Property of Semi-Markov Processes with Borel State Spaces	301
	Óscar Vega-Amaya
