1	Introduction	1
1.1	Introduction	1
1.2	Problem Formulation and Preliminaries	4
1.2.1	T–S Fuzzy System	4
1.2.2	Fuzzy Filter	6
1.2.3	H_∞ Filtering	6
1.2.4	LMI Properties	7
	References	13
2	With Additive Gain Variations	17
2.1	Problem Formulation	17
2.2	Non-Fragile H_∞ Filter Design	19
2.2.1	Continuous-Time Case	19
2.2.2	Discrete-Time Case	40
2.3	Numerical Example	49
2.4	Conclusion	53
	References	53
3	With Multiplicative Gain Variations for Type I	55
3.1	Problem Formulation	55
3.2	H_∞ Filtering Analysis	57
3.3	Non-Fragile H_∞ Filter Design	59
3.3.1	Case A	60
3.3.2	Case B	64
3.4	Further Researches	70
3.5	Simulation Example	77
3.6	Conclusion	81
	References	82

4	With Multiplicative Gain Variations for Type II	83
4.1	Problem Formulation	83
4.2	Filtering Analysis	85
4.3	Non-Fragile Filter Design	87
4.3.1	Case A	88
4.3.2	Case B	92
4.4	Simulation Example	97
4.5	Conclusion	101
	References	102
5	With Linear Fractional Parametric Uncertainties	103
5.1	Problem Formulation	103
5.2	Filtering Analysis	106
5.3	Non-Fragile Filter Design	108
5.4	Non-PDC Law	114
5.5	Simulation Example	122
5.6	Conclusion	125
	References	125
6	A Descriptor Representation Approach	127
6.1	Introduction	127
6.2	Non-Fragile Filter Design	129
6.2.1	Type I	129
6.2.2	Type II	136
6.2.3	Fuzzy Lyapunov Function Approach	145
6.3	Non-PDC Law	149
6.4	Improved Result	158
6.5	Numerical Example	160
6.6	Conclusion	162
	References	163
	Glossary	165
