

Contents

1	Tensor Analysis on Differentiable Manifolds	1
1.1	Differentiable Manifolds.....	1
1.2	Tensor Fields Over Differentiable Manifolds.....	16
1.3	Riemannian and Pseudo-Riemannian Manifolds	40
1.4	Extrinsic Curvature	88
2	The Pseudo-Riemannian Space–Time Manifold M_4	105
2.1	Review of the Special Theory of Relativity.....	105
2.2	Curved Space–Time and Gravitation.....	136
2.3	General Properties of T_{ij}	174
2.4	Solution Strategies, Classification, and Initial-Value Problems.....	195
2.5	Fluids, Deformable Solids, and Electromagnetic Fields	210
3	Spherically Symmetric Space–Time Domains	229
3.1	Schwarzschild Solution	229
3.2	Spherically Symmetric Static Interior Solutions	246
3.3	Nonstatic, Spherically Symmetric Solutions	258
4	Static and Stationary Space–Time Domains	277
4.1	Static Axially Symmetric Space–Time Domains	277
4.2	The General Static Field Equations	290
4.3	Axially Symmetric Stationary Space–Time Domains.....	317
4.4	The General Stationary Field Equations	331
5	Black Holes	351
5.1	Spherically Symmetric Black Holes	351
5.2	Kerr Black Holes.....	384
5.3	Exotic Black Holes.....	403
6	Cosmology	419
6.1	Big Bang Models.....	419
6.2	Scalar Fields in Cosmology	440
6.3	Five-Dimensional Cosmological Models	456

- 7 Algebraic Classification of Field Equations** 465
 - 7.1 The Petrov Classification of the Curvature Tensor 465
 - 7.2 Newman–Penrose Equations 503
- 8 The Coupled Einstein–Maxwell–Klein–Gordon Equations** 537
 - 8.1 The General E–M–K–G Field Equations 537
 - 8.2 Static Space–Time Domains and the E–M–K–G Equations 542
 - 8.3 Spherical Symmetry and a Nonlinear Eigenvalue Problem
for a Theoretical Fine-Structure Constant 551
- Appendix 1 Variational Derivation of Differential Equations**..... 569
- Appendix 2 Partial Differential Equations** 585
- Appendix 3 Canonical Forms of Matrices**..... 605
- Appendix 4 Conformally Flat Space–Times and “the Fifth Force”** 617
- Appendix 5 Linearized Theory and Gravitational Waves** 625
- Appendix 6 Exotic Solutions: Wormholes, Warp-Drives,
and Time Machines** 633
- Appendix 7 Gravitational Instantons** 647
- Appendix 8 Computational Symbolic Algebra Calculations** 653
- References**..... 661
- Index** 669
