

Contents

1	General Introduction	1
1.1	Tumor Suppressor Protein p53	1
1.2	Primary Structure of p53 Protein	1
1.3	Posttranslational Modifications of p53	2
1.4	3D Structure of p53	4
1.5	Tetramerization and Function of p53	5
1.6	Biophysical Methods	7
1.6.1	Circular Dichroism (CD)	7
1.6.2	The p53 Tetramerization Domain Peptides	8
1.7	Aims of this Study	9
	References	9
2	Quantitative Analysis for p53 Tetramerization Domain Mutants Reveals a Low Threshold for Tumor Suppressor Inactivation	13
2.1	Introduction	13
2.2	Experimental Procedures	15
2.2.1	Peptide Synthesis and Purification	15
2.2.2	Gel Filtration Chromatography	16
2.2.3	Thermal Denaturation by Circular Dichroism Spectroscopy	16
2.2.4	Structural Modeling of p53TD Mutants	16
2.3	Results	17
2.3.1	Oligomerization State of Mutant p53 Tetramerization Domains	17
2.3.2	Secondary Structure of Mutant p53 Tetramerization Domains	19
2.3.3	Thermal Stability of the Mutant p53 Tetramerization Domains	19
2.3.4	Effects of Mutation on the Tetrameric Structure	19
2.3.5	Modeling of Mutant p53TD Peptides	30

2.3.6	Correlation Between Stability of p53TD Peptides and that of the Full-Length p53 Protein and the Transcriptional Activity	30
2.4	Discussion	31
	References	41
3	Stabilization of Mutant Tetrameric Structures by Calixarene Derivatives.	45
3.1	Introduction	45
3.2	Experimental Procedures	47
3.2.1	Synthesis of the Calixarene Derivatives	47
3.2.2	Thermodynamic Stability of the Peptide by CD	48
3.2.3	Transcriptional Activity of p53-R337H in Cell	48
3.3	Results	49
3.3.1	Design of Calixarene Derivatives	49
3.3.2	Stabilization of Mutant Peptides by Calixarene Derivatives	50
3.3.3	Transcriptional Activity of p53 Protein in Cell	52
3.4	Discussion	54
	References	58
4	Inhibition of the Transcriptional Activity of p53 Through Hetero-Oligomerization	61
4.1	Introduction	61
4.2	Experimental Procedures	62
4.2.1	Peptide Synthesis	62
4.2.2	CD Analysis of PTD-p53tet Peptide	63
4.2.3	Hetero-Oligomerization of PTD-p53tet Peptide.	63
4.2.4	Transcriptional Activity of p53 with PTD-p53tet Peptide	63
4.3	Results	64
4.3.1	CD Spectra of PTD-p53tet Peptides	64
4.3.2	Hetero-Oligomerization of PTD-p53tet Peptides with p53(319-358) Peptide	64
4.3.3	Cellular Introducing and Localization of PTD-p53tet Peptides	65
4.3.4	Transcriptional Activity of Venus-p53 Protein in Cell . . .	65
4.4	Discussion	67
	References	70
5	Conclusion.	71
