Introduction	I
 PART I THE PIONEERING YEARS (1863–1914): THE QUEST FOR LEADERSHIP AND THE FIRST STAGES OF THE INTERNATIONALIZATION	
<i>Nicolas Coupain</i>	
1 First Steps: When Vision and Reality Meet	9
1.1 <i>Inspiration and Implementation</i>	10
1.2 <i>A Difficult Start for the Couillet Plant</i>	24
2 A Multinational Pioneer	33
2.1 <i>Experimenting with Three Strategies of Internationalization (1870s)</i>	34
2.2 <i>Emergence of a Transatlantic Group of Solvay Companies (1880s)</i>	42
2.3 <i>A Company of Engineers</i>	55
3 Reaching a Dominant Position	65
3.1 <i>War and Peace in Soda Ash International Trade</i>	66
3.2 <i>Evolution of Management Structures</i>	85
4 Labor Organization, Social Policy, and Societal Vision	97
4.1 <i>Elaboration of an Industrial Relations Strategy</i>	97
4.2 <i>The Multiple Facets of Solvay’s Social Relations</i>	101
5 The Consolidation of Power	119
5.1 <i>Opportunistic Diversifications: Potash and Coke Oven By-Products</i>	119
5.2 <i>Being a Part of the Electrochemical Revolution</i>	123
5.3 <i>A New Round of Geographical Expansion</i>	127
5.4 <i>Ensuring Continuity: The Rise of the Second Generation</i>	131

5.5	<i>The Nonindustrial Life of Ernest Solvay: Scientia Vincere Tenebras</i>	135
6	Conclusion of Part 1	143
6.1	<i>Capitalizing on a Technological Breakthrough</i>	143
6.2	<i>A Hybrid Multinational Organization</i>	144
6.3	<i>An Unshakable Leadership</i>	145
6.4	<i>The Life of a Family Business</i>	146
 PART 2 THE YEARS OF CRISIS (1914–1950): THE MAKING AND UNMAKING OF INTERNATIONAL ALLIANCES <i>Kenneth Bertrams</i>		
7	The Multiple Fronts of World War I	151
7.1	<i>Facing the Occupation, Organizing the Relief Effort</i>	152
7.2	<i>The Conduct of Business in Occupied Territory</i>	155
7.3	<i>Europe at War: The Western Side</i>	159
7.4	<i>Europe at War: The Eastern Side</i>	164
7.5	<i>The Declaration of Independence of Solvay Process Company</i>	169
8	From the Ashes, 1918–1922	175
8.1	<i>The Reordering of Europe</i>	176
8.2	<i>Facing Social Upheaval</i>	188
8.3	<i>Death of the Founding Father</i>	190
9	The Making of International Alliances	193
9.1	<i>IG and Allied: Coping with Giants</i>	194
9.2	<i>The Twists and Turns of Industrial Diplomacy</i>	206
9.3	<i>Exploring Alternatives in America</i>	219
10	Family and Finance through the Crisis	229
10.1	<i>Managerial Legacies</i>	230
10.2	<i>The Collapse and Rebirth of the Mutuelle</i>	239
11	The Electrolytic Industry	251
11.1	<i>Missing the Electrolytic Momentum</i>	252
11.2	<i>The Transnational Cartelization of the Chlorine Industry</i>	255
11.3	<i>From Caustic Soda to Chlorine Derivatives</i>	261
11.4	<i>Electrolysis and Politics: The Rise of Authoritarian Regimes in Italy and Spain</i>	267
12	Facing War Again	277
12.1	<i>Social Policy and the New Order</i>	278
12.2	<i>The National-Socialist Takeover</i>	285
12.3	<i>Solvay at War: Within Occupied Territories</i>	290
12.4	<i>Solvay at War: In Great Britain and the Americas</i>	298
13	Solvay’s Second Postwar Period	305
13.1	<i>A Difficult Transition</i>	306
13.2	<i>Farewell to Bernburg</i>	309
13.3	<i>The Liquidation of IG Farben and Its Consequences</i>	315

Tables

1.1.	Worldwide Leblanc soda ash tonnages and prices (1810–1863)	<i>page</i> 13
3.1.	Partnership shares (with voting rights) held by the family groups (1863–1966)	86
3.2.	Profits and self-financing mechanisms of Solvay & Cie: Equity, debts, earnings (including dividend received from foreign subsidiaries), and paid dividend (1863–1913)	92
3.3.	Conversion of currencies before 1914	93
4.1.	Qualifications, salaries, and schedules of blue-collar workers (1908–1912)	105
5.1.	Development of Semet-Solvay coke ovens in 1913	122
5.2.	Sales quotas within the German syndicates in 1913	131
7.1.	Production and deliveries of soda ash at Couillet, 1915–1918	157
7.2.	Production of soda ash at Dombasle and Giraud: Deliveries in France by Solvay & Cie, Saint-Gobain, and Marchéville-Daguin, 1913–1919	161
7.3.	Production of soda ash and caustic soda – Dombasle, Giraud, Torrelavega, 1912–1919	162
7.4.	Production of soda ash – DSW, 1912–1919	165
7.5.	Production of soda ash – SW, 1912–1919	167
7.6.	Production of caustic soda – SW, 1912–1919	168
7.7.	Production of picric acid, chlorine, and phosgene at Donetz, 1915–1917	169
10.1.	Repartition of responsibilities among <i>gérants</i> (November 1931)	238
11.1.	Evolution of sales of Solvay in the 1930s	252
11.2.	Production of caustic soda in Germany, 1913–1937 (in 1,000 tons)	259
11.3.	Overview of the development of electrolytic units in the Solvay group (1928–1942)	264
13.1.	Nationalized properties of Solvay and compensation schemes in postwar Central and Eastern Europe	322
15.1.	The international development of Solvay’s PVC business, 1949–1959	345
15.2.	PVC production and sales of Solvay’s subsidiaries, 1950–1960	348

15.3.	HDPE production by Solvay, 1959–1969	354
15.4.	Sales of different product groups, as percentages of total sales of the Solvay group	358
16.1.	Start of plastics processing by Solvay in different countries, 1958–1970	376
17.1.	Investments, profits, and sales at Solvay, 1955–1967	384
17.2.	Shares of Solvay & Cie held by the different family groups (1 July 1967)	394
18.1.	Production and sales of high-density polyethylene and of polypropylene by Soltex Polymer Corporation, 1975–1999	421
18.2.	Solvay America’s organization and product mix in 1992	428
19.1.	Business development of the Solvay Group and the Belgian chemical industry, 1969–1980	434
19.2.	Solvay’s life sciences and special chemicals portfolio after the acquisition of Salsbury and Duphar	444
19.3.	Market shares of Kali-Chemie and Duphar-Pharma in 1980	455
19.4.	Product synergy between Kali-Chemie and Duphar (1980)	456
20.1.	Performance of the Solvay Group, 1980–1989	463
20.2.	Solvay’s financial results in plastics, 1981–1983	465
21.1.	Performance of the Solvay Group, 1989–1997	493
21.2.	Product leadership ranking of Solvay, 1994	506
22.1.	Sales of five major Solvay pharmaceutical products (1995–2004)	545
22.2.	Sales of five major Solvay pharmaceutical products (2000–2009)	547
22.3.	Division of sales and Rebit across different product groups, 1999–2010	548
23.1.	Development of Solvay, 1950–2010	560
A.1.	Solvay Leadership (1863–2012)	565
B.1(a).	Financial perimeter and performance of Solvay & Cie (1865–1966)	570
B.1(b).	Financial perimeter and performance of the Solvay Group (consolidated) (1967–2010)	572
C.1.	Production of major products of the Solvay Group, in kilotons per year (1866–2011)	573

Charts

2.1.	Production of the Solvay group’s plants (1866–1892)	<i>page</i> 53
2.2.	Earnings from Solvay direct activities, dividends received from foreign subsidiaries, and dividend paid by Solvay & Cie to its shareholders (1866–1913)	54
3.1.	Worldwide soda ash production (1865–1913)	68
10.1.	Overview of the portfolio of the Mutuelle Solvay (November 1930)	245
11.1.	Production of caustic soda in Continental Europe (except Russia), 1921–1937	256

5.1.	The “soda ash tree” displayed by Solvay at industrial exhibitions	118
5.2.	The first Solvay Conference of Physics of 1911	140
6.1.	Map of the Solvay group plants in 1913	142
7.1.	Results of the bombing of the Château-Salins soda ash plant on 24 July 1917	150
7.2.	Solvay Process Company’s top executives and board members a few years before World War I	170
8.1.	Solvay executives visiting the Wieliczka salt mine, near Krakow, Poland (1921)	174
8.2.	A workers’ colony of Zakłady Solvay at Montwy, Poland	189
9.1.	One of the rare pictures of Orlando Weber, taken in 1935, after his retirement as chairman of Allied Chemical & Dye Corp.	192
9.2.	Some of the Solvay <i>gérants</i> visiting salt mines at Borth (1926)	195
10.1.	Building of the Mutuelle Solvay, on the northern side of the prestigious Avenue Louise of Brussels	228
10.2.	Organizational chart drafted by Louis Solvay in 1925	236
11.1.	Casks of caustic soda, increasingly produced through salt electrolysis in the 1930s	250
11.2.	Balila’s parade at Rosignano-Solvay under the fascist regime (1930s)	268
12.1.	The DSW company magazine, April 1935	276
12.2.	Rosignano, destroyed by American bombing in June 1940	299
13.1.	The Solvay trial at Bernburg, 14 December 1950	304

13.2. The Rheinberg plant of DSW was partly enlarged with help of Marshall Plan aid	317
14.1. Map of the Solvay group plants in 1938	324
15.1. Autoclaves for producing PVC at Jemeppe, Belgium, Solvay's first industrial PVC plant	332
15.2. Special trucks for the transport of liquid ethylene used at Rosignano, Italy, at the end of the 1950s	352
16.1. Cracker constructed at Rosignano for the production of ethylene (for HDPE) and acetylene (for PVC)	360
16.2. Solvic's PVC bottles, produced by Solvay's processing sector	378
17.1. A share of the new public company Solvay & Cie SA (1967)	382
17.2. The Solvay <i>gérants</i> at the opening of a new company restaurant, at the company's headquarters (1960)	391
18.1. The polyolefins plant at Deer Park, Texas	406
18.2. A transport vehicle in the trona (natural soda ash) mines in Wyoming, United States	427
19.1. Research on fermentation in the Solvay laboratories in the 1980s	430
19.2. Aerial view of the site of Duphar at Weesp, the Netherlands	443
20.1. Construction of the peroxides plant at Map Tha Put in Thailand, 1980s	458
20.2. Daniel Janssen and H. E. Patrick Nothomb, visiting the king of Thailand, Bhumibol Adulyadej, in 1989	472
21.1. The Executive Committee, with general product managers, as of 1 January 1995	488
21.2. Double-decker bus, with the slogan "Greenpeace is fooling itself – Greenpeace is fooling you – Solvay informs you"	504
21.3. The Devnya plant displayed on a Bulgarian banknote	509
22.1. Since 2004 Solvay has sponsored Bertrand Piccard and André Borschberg's Solar Impulse project	528
22.2. Solvay and BP executives, in August 2001, after concluding a crucial deal	538
23.1. Solvay leaders at the ceremony to introduce Solvay shares to the Paris Stock Exchange, 23 January 2012	558
