<i>Preface</i>	xiii
1 Introduction	1
2 The domestic liquidity crisis in the USA	12
1 The flight to liquidity and safety	12
2 The collateral squeeze	14
3 Commercial bank balance sheets after the Lehman Brothers failure	18
4 Secured funding and the liquidity management of large broker-dealers	20
5 Central bank reserve management	27
6 The collateral squeeze and the inflow of funds from abroad	30
3 International liquidity crises outside the USA	32
1 International flows of funds during the crisis of 2008	32
2 Currency-specific liquidity shortages	33
3 The unwinding of carry trades	41
4 The scale of the global crisis	43
4 Effects on financial markets outside the USA	49
1 Money and swap markets	49
2 Incidence of currency-specific liquidity shortages – evidence from market indicators	52
3 Effects of the unwinding of carry trades in destination countries	61
5 The theory of central banking before the crisis and the practice of central banking during the crisis	68
1 Pre-crisis central bank behaviour	68
2 The nature of central banks’ reactions to the crisis	74
3 Scale of central banks’ reactions	77

vi	Contents
6	Swap lines 83
1	History 83
2	Which swap networks were set up during the crisis? 86
	Appendix to Chapter 6 96
7	Which countries received swap lines? 99
1	Risks to liquidity providers 99
2	Objectives of liquidity takers 103
3	Relationship between currency shortages and probability of receiving a swap line 104
8	Did the swap providers achieve their objectives? 113
1	Experiences of swap providers 113
2	Comparison of the experiences of swap providers 126
9	How did the swap lines affect the recipients? 128
1	Large international financial centres 128
2	Smaller international financial centres 137
3	Countries which are not international financial centres 144
4	Summary 156
10	Propagation and scale of the 1931 crisis 158
1	International flows of funds in 1931 158
2	Flight to liquidity and safety 164
3	Central bank reserve management 166
4	The scale of the liquidity crisis 168
11	The management of the 1931 crisis 173
1	The gold standard in theory 173
2	The gold standard in 1931 175
12	A comparison of 1931 and 2008 186
1	Nature and scale of the crises 186
2	Propagation and management of the crises 189
13	International liquidity management 197
1	Reserve-holding behaviour since the end of Bretton Woods 197
2	The effects of the crisis on reserve-holding behaviour 201
3	Post-crisis reserve accumulation 210
4	The global demand for liquidity and the concept of monetary policy 211
	<i>Data appendix</i> 217
