1 Experimental syntax and island effects: Toward a comprehensive theory of islands	1
JON SPROUSE AND NORBERT HORNSTEIN	
Part 1 Global issues in the investigation of island effects	
2 Deriving competing predictions from grammatical approaches and reductionist approaches to island effects	21
JON SPROUSE, MATTHEW W. WAGERS, AND COLIN PHILLIPS	
3 Islands in the grammar? Standards of evidence	42
PHILIP HOFMEISTER, LAURA STAUM CASASANTO, AND IVAN A. SAG	
4 On the nature of island constraints I: Language processing and reductionist accounts	64
COLIN PHILLIPS	
5 Computational models of acquisition for islands	109
LISA PEARL AND JON SPROUSE	
6 On the nature of island constraints II: Language learning and innateness	132
COLIN PHILLIPS	
Part 2 Specific issues in the investigation of island effects	
7 Memory mechanisms for <i>wh</i> -dependency formation and their implications for islandhood	161
MATTHEW W. WAGERS	

vi	Contents	
8	What’s negative about negative islands? A re-evaluation of extraction from weak island contexts	186
	ROBERT KLUENDER AND SIMONE GIESELMAN	
9	On the structural nature of island constraints	208
	BRIAN DILLON AND NORBERT HORNSTEIN	
10	Backgrounded constituents cannot be “extracted”	221
	ADELE E. GOLDBERG	
11	Microvariation in islands?	239
	DAVE KUSH, AKIRA OMAKI, AND NORBERT HORNSTEIN	
12	Subject islands in German revisited	265
	JOHANNES JURKA	
13	Subject islands are different	286
	MARIA POLINSKY, CARLOS G. GALLO, PETER GRAFF, EKATERINA KRAVTCHENKO, ADAM MILTON MORGAN, AND ANNE STURGEON	
14	What vs. who and which: Kind-denoting fillers and the complexity of <i>whether</i> -islands	310
	THEODORA ALEXOPOULOU AND FRANK KELLER	
15	Resumption in English	341
	MARIA POLINSKY, LAUREN EBY CLEMENS, ADAM MILTON MORGAN, MING XIANG, AND DUSTIN HEESTAND	
16	The island (in)sensitivity of sluicing and sprouting	360
	MASAYA YOSHIDA, JIYEON LEE, AND MICHAEL WALSH DICKEY
