Contents

Preface	11
1 Introduction	13
2 Theoretical background	17
2.1 Research on the syllable	17
2.2 The case of word initial SC clusters	42
2.3 Articulatory Phonology	49
3 Method	79
3.1 Articulatory and acoustic recordings	79
3.2 Subjects	80
3.3 Speech material	81
3.4 Labelling procedure	83
3.5 Articulatory analysis (gestural coordination)	86
3.6 Acoustic analysis (segmental duration)	94
3.7 Predictions for articulatory and acoustic analysis	94
4 Results: Gestural coordination	97
4.1 Non-sibilant clusters (CC)	97
4.2 Sibilant clusters (SC)	109
4.3 Three-consonant clusters (SCC)	122
5 Results: Segmental durations	129
5.1 Non-sibilant clusters	129
5.2 Sibilant clusters	131
5.3 Three-consonant clusters	133
5.4 Interim summary (segmental duration)	135
6 Modelling Italian word initial clusters	139
6.1 Summary of results	139
6.2 Coupled oscillator model	141
7 Summary and conclusion	145
References	149
