ISBN 978 3 03785 753 3

Table of Contents

Preface, Committees and Sponsors

Chapter 1: Research on Building Engineering and Building Materials

Study on Crack Prevention Measures of Mass RCC Dams J.G. Jing, M.Z. Liu, S.J. Zeng and L. Xu	3
Study on Experiment of the Wire Rope Composite Anchoring X.G. Cui, X.Y. Tong and Z. Dou	9
Research on Color Design in Reconstruction of Architectures Alongside Streets Based on Building Materials Y.L. Li and X.Y. Wang	13
Study on Hydrogeological Investigation and Water Preventing and Draining Technology of Zhongtiaoshan Tunnel X.H. Xue, Z.M. Su and F. Song	17
Study on Engineering Materials with Optimization Design of Pile-Anchor Support for Foundation Pit Based on Uniform Test and SVM Response Surface W.Y. Ding, D.S. Zhao, J. Cao and H.M. Liu	21
Soil Nailing Optimization Design of Foundation Pit Based on Response Surface of SVM Technology T. Liu, J. Cao, H.M. Liu and H.M. Zhao	27
Research on Construction Materials with the Elderly Residence Planning and Design Based on Home Care of the Elderly J. Li	31
Study on Bridge Pile Load Test Status and Existing Problems X.F. Zhang, Q.N. Li and Y. Ma	35
Behavior of High-Strength Concrete-Filled FRP Tube Columns under Simulated Seismic Loading: An Experimental Study Y. Idris and T. Ozbakkaloglu	39
A Simple Design-Oriented Model for FRP-Confined High-Strength Concrete J.C. Lim and T. Ozbakkaloglu	45
Study on Significant Engineering Construction Projects with Building Materials Based on Social Stability Risk Assessment Q. Shi and Y. Liu	50
Research on Application of Iron Tailings on Road Base S. Xu	54
Glass-Fibre-Concrete Applied for Building Facade Panels Subjected to Wind Loading Actions M. Karmazínová and J. Melcher	58
Seismic Vulnerability Assessment of Existing Precast Industrial Buildings M. Valente	63
Concrete Reinforced by Glass-Fibre Mesh and Their Efficient Usage in Plated Facade Components Stiffened by Rib M. Karmazínová	67
The Construction Technique of the Beam Slab Structure being Filled Large-Span Prestressed Lightweight Materials J.L. Yuan	73
Impact of the Chemical Injection Method on the Dispersion of the Injected Agents in History Masonry of Construction Industry S. Nenádálova, L. Balík and J. Kolísko	78
Study on the Architecture Materials Design of Art and Clothing Materials Design L. Ma	82
Analysis of Mechanical Characteristic of Systematic Bolt in Loess Tunnel under the Drawing Load Z.M. Su and R. Liu	86

Numerical Simulation on Indoor Thermal Environment of Radiant Flooring Cooling System with Displacement Ventilation W. Cai, W. Lv, L.X. Zhu and P.F. Yang	90
Study on Anchor Support Simulation in Deep Mining Based on Tunnel Deformation and Stress Q. Wang, G. Chen and Z.W. Wang	94
Study on Simulation of Deep Roadway Support Effect Based on Mechanics Analysis and Material Properties G. Chen, G.Y. Sun and Q. Wang	98

Chapter 2: Structures Engineering

Effect of Vertical Component of Earthquake on the Response of Pure-Friction Base-Isolated Structures W. Gu, X.D. Wen, W. Cai and B. Liu	105
Vertical Motive Performance Test of the Rigid Hinge Expansion Joint of Jiashao Bridge Y. Zhao and T.B. Peng	110
Study Finite Element Analysis of Monopile Foundation Based on Mechanical Mechanics and Properties of Steel Structure for Offshore Wind Turbines B.X. Mei	114
Numerical Studies on Friction Stir Welding of Lightweight Materials X.C. He	118
Dissipative Knee Bracing for Seismic Strengthening of Steel Frames M. Valente	123
Study on Dynamic Second-Order Effects of SDOF System under Vertical Earthquake Loading F.X. Han and J. Yu	128
Study on Seismic Behavior of Joints Composed of Engineering Material of Concrete Filled Steel Tube X.W. Zhang and Q.Y. Shi	132
FEM Analysis of Bi-Prestressed Concrete Beam F. Gao and T. Liu	138
Structure Analysis of Large Steel Crude Oil Tank under the Planar Inclined Foundation L.X. Wei, X.Y. Li and D.W. Ji	142
Experimental Investigation on Composite Seismic Isolation System X.Z. Dang, H.L. Yang, W.C. Yuan and D.Q. Song	146
Design and Construction of Plot 0 Wide-Span Cantilever Beam Support Z. Li and N.H. He	150
A Self-Centering Seismic Design for Bridge with Pile-Cap Foundation H.L. Yang, X.Z. Dang, W.C. Yuan and D.Q. Song	155
Brief Introduction of Structural Design for Lijiang Sports Center Stadium W.Q. Xu, J.X. Song and W. Pan	159
Steel and Steel-Concrete Composite Columns of HEA-Cross-Sections with Member Imperfections, Subjected to Buckling Compression M. Karmazínová	164
Thin-Walled Cold-Formed Steel Beams with Holes in Lateral Flexural-Torsional Buckling M. Karmazínová, J. Melcher and M. Horáček	170

Chapter 3: Research on Applied Materials

Preparation of ZnFe₂O₄ Nanometer Powders by Sol-Gel Method and Research about its Electrochemical Performance Y.L. Wu, Q.H. Wang, L. Wang and H.Y. Zhao	179
Functional Modification and Preparation of Superparamagnetic Fe₃O₄ X.F. Sun and Y.J. Li	183

Study on Test Materials with the Relationship between Growth and Development Characteristics and Temperature and Relative Humidity of <i>Jacaranda mimosifolia</i> Y. Sun, F. Li and J.A. Shi	189
Study of Waste Rigid Polyurethane Plastic Foam Insulation Recycling and Recovery W.J. Gao, W.B. Duan, Y.C. Zhang, J.H. Zhu, B. Liu, F.H. Yang and J.P. Guo	195
Research on Preparing Recycling Boards by Using Non-Metallic Materials of Obsolete Printed Circuit Boards Y.C. Zhang, B. Liu, W.J. Gao, J.H. Zhu, W.B. Duan, F.H. Yang and J.P. Guo	199
Experimental Study on the Influence of the Self-Healing Microcapsules on the Friction Noise Performance of Composite Gears Based on Properties of Mechanical Materials L. Zhang and Y.M. Ma	203
Parameter Optimization by Taguchi Method for Thermoplastic Polymer Using a Melt Spinning Machine S.W. Wang and T.L. Su	208
Improving the Biodegradability of Polylactic Acid at <i>Alcaligenes Faecalis</i> and <i>Staphylococcus Aureus</i> Using the Optimization Method S.W. Wang and T.L. Su	213
Structure and Properties of CNT-PbO₂ Anodes on Stainless Steel Y.H. Song and L.J. Ma	218
Research on Gelatinization Process of Starch X.L. Chen and Q.N. Shi	223
Research on Roll Welding Process of Cu/Al Composite Plates X.L. Chen and Q.N. Shi	227
Effects of Inner Corner Angle on Strain Distribution of ECAPed Aluminum Alloy X.L. Chen and Q.N. Shi	231

Chapter 4: Related Topics

Single Micro Pile in Debris Landslide Anti-Sliding Mechanism Model Test Research Q. Cai, J.M. Kong and Y. Zhang	237
Numerical Simulation of Soil-Pipe-Fluid Interaction in Buried Liquid-Conveying Pipe M. Yang, X. Liu and Y.H. Chen	244
The Block Spring Model for Seepage Slope Stability Analysis J. Ma, W.S. Chen and Z. Li	249
NO_x-Sensing Characteristics of Sensor with ZnFe₂O₄ Sensing Electrode Y.L. Wu, H.Y. Zhao, Q.H. Wang and L. Wang	253
Study on Mine Materials with Exploring for Future Development Direction of Resources Crisis on Mines Y.X. Bao	257
