

Color Atlas of Dental Hygiene: Periodontology

Bearbeitet von
Herbert F. Wolf, Thomas M. Hassell

1. Auflage 2006. Taschenbuch. 352 S. Paperback
ISBN 978 3 13 141761 9
Format (B x L): 23 x 31 cm

[Weitere Fachgebiete > Medizin > Zahnmedizin > Zahnmedizin: Präventive & Restaurative, Prothetik](#)

DIE FACHBUCHHANDLUNG

Die Online-Fachbuchhandlung beek-shop.de ist spezialisiert auf Fachbücher, insbesondere Recht, Steuern und Wirtschaft. Im Sortiment finden Sie alle Medien (Bücher, Zeitschriften, CDs, eBooks, etc.) aller Verlage. Ergänzt wird das Programm durch Services wie Neuerscheinungsdienst oder Zusammenstellungen von Büchern zu Sonderpreisen. Der Shop führt mehr als 8 Millionen Produkte.

Table of Contents

Fundamentals

1	Introduction
1	Periodontal Diseases
4	The Clinical Course of Untreated Periodontitis
4	Periodontitis—Concepts of Therapy
7	Structural Biology
8	Gingiva
10	Epithelial Attachment
12	Connective Tissue Attachment
14	Root Cementum
16	Osseous Support Apparatus
18	Blood Supply of the Periodontium
19	Innervation of the Periodontium
20	The Coordinated Functions of the Periodontal Structures
21	Etiology and Pathogenesis
22	Periodontitis—A Multifactorial Disease
23	Microbiology
24	Biofilm—Plaque Formation on Tooth and Root Surfaces
25	Supragingival Plaque
26	Natural Factors Favoring Plaque Retention
27	Iatrogenic Factors Favoring Plaque Retention
28	Subgingival Plaque
29	Bacterial Invasion Into Tissue?
30	Classification of Oral Microorganisms
31	Cell Walls of Gram-positive and Gram-negative Bacteria
32	Periodontitis—Classical or Opportunistic Infection?
33	Putative Periodontopathic Bacteria
34	Virulence Factors
34	Virulence Transfer
36	Marker Bacteria in Periodontitis
37	Pathogenic “Single Fighters” vs. Pathogenic Complexes?
38	Endotoxins—Lipopolysaccharide (LPS)
38	Interaction Between LPS and the Host
39	Pathogenesis—Reactions and Defense Capabilities of the Host
40	New Concepts of Pathogenesis
	– Therapeutic and Diagnostic Consequences
41	Host Response—Mechanisms and “Participants”
42	Non-specific, Congenital Immunity—the First Line of Defense
43	Specific, Acquired Immunity—the Second Line of Defense
44	Components of the Immune System—Summary
45	Interactions Between Non-specific and Specific Immunity
46	Regulatory Cell Surface Molecules: Markers, Receptors
47	Cytokines
49	Eicosanoids—Prostaglandins and Leukotrienes
50	Enzymatic Mechanisms—Matrix Metalloproteinases
51	Risk for Periodontitis—the Susceptible Host
52	Genetic Risk Factors—Diseases, Defects, Variations
54	Alterable Risk Factors, Modifying Co-Factors

55	Pathogenesis I—Initial Inflammatory Reactions
56	Pathogenesis II—Histology
58	Pathogenesis III—Molecular Biology
60	Attachment Loss I—Destruction of Connective Tissue
61	Attachment Loss II—Bone Resorption
62	Pathogenesis—Clinical Features: From Gingivitis to Periodontitis
63	Cyclic Course of Periodontitis
64	Periodontal Infections and Systemic Diseases
65	Etiology and Pathogenesis—Summary
67	Indices
70	Papilla Bleeding Index—PBI
71	Periodontal Indices
72	Community Periodontal Index of Treatment Needs—CPITN
73	Periodontal Screening and Recording—PSR
74	Epidemiology
74	Epidemiology of Gingivitis
75	Epidemiology of Periodontitis
76	WHO Studies

Disease Entities and Diagnosis

77	Types of Plaque-associated Periodontal Diseases
77	Gingivitis—Periodontitis
78	Classification of Periodontal Diseases—Nomenclature
79	Gingivitis
80	Histopathology
81	Clinical Symptoms
82	Mild Gingivitis
83	Moderate Gingivitis
84	Severe Gingivitis
85	Ulcerative Gingivitis/Periodontitis
86	Histopathology
87	Clinical Symptoms—Bacteriology
88	Ulcerative Gingivitis (NUG)
89	Ulcerative Periodontitis (NUP)
90	Ulcerative Gingivoperiodontitis—Therapy
91	Hormonally Modulated Gingivitis
93	Severe Pregnancy Gingivitis—Gravid Epulis
94	Pregnancy Gingivitis and Phenytoin
95	Periodontitis
96	Pathobiology—The Most Important Forms of Periodontitis
96	Type II
96	Type III B
97	Type III A
97	Type IV B
98	Pathomorphology—Clinical Degree of Severity
99	Pockets and Loss of Attachment
100	Intra-alveolar Defects, Infrabony Pockets

102	Furcation Involvement
104	Histopathology
105	Additional Clinical and Radiographic Symptoms
108	Chronic Periodontitis—Mild to Moderate
110	Chronic Periodontitis—Severe
112	Aggressive Periodontitis—Ethnic Contributions?
114	Aggressive Periodontitis—Acute Phase
116	Aggressive Periodontitis—Initial Stage
118	Prepubertal Periodontitis—PP (Aggressive Periodontitis)
119	Oral Pathologic Alterations of Gingiva and Periodontium
120	Primarily Gingival Alterations (Type I B)
120	Gingival and Periodontal Alterations (Type IV A/B)
121	Phenytoin-Induced Gingival Overgrowth
122	Dihydropyridine-induced Gingival Overgrowth
123	Cyclosporine-induced Gingival Overgrowth
124	Gingival Hyperplasia Following Combined Drug Therapies
125	Benign Tumors—Epulis
126	Benign Tumors—Fibrosis, Exostosis
127	Malignant Tumors
128	Gingivitis / Pemphigoid
128	Pemphigus vulgaris
129	Lichen planus: Reticular and Erosive
130	Leukoplakia, Pre-Cancerous Lesions—Oral Granulomatosis
131	Herpes—Herpetic Gingivostomatitis
132	Periodontitis with Systemic Diseases (Type IV)—Diabetes Type I and Type II
134	Periodontitis Associated with Systemic Diseases (Type IV B) Down Syndrome, Trisomy 21, “Mongolism”
136	Pre-pubertal Periodontitis Associated with Systemic Disease Papillon-Lefèvre Syndrome (Type IV B)
138	Papillon-Lefèvre Syndrome—“An Exception for Every Rule”
139	HIV Infection—AIDS
140	HIV Disease—Epidemiology
141	Classification and Clinical Course of HIV Disease
142	Oral Manifestations of HIV Disease
143	Bacterial Infections in HIV
144	Fungal Infections
145	Viral Infections
146	Neoplasms
147	HIV-Associated Lesions of Unknown Etiology
148	Invasion and Replication of the HI Virus—Hurdles for Systemic Medical Treatment
149	Treatment of the HIV Patient—Pharmacologic Aspects
150	HIV—Treatment of Opportunistic Infections
150	Infection Prevention and Post-exposure Prevention—The Dental Team
151	Treatment of HIV-Periodontitis
155	Gingival Recession
156	Fenestration and Dehiscence of the Alveolar Bone
157	Clinical Symptoms
158	Recession—Localized
159	Recession—Generalized
160	Clinical Situations Resembling Recession
161	Recession—Diagnosis
162	Measurement of Recession (Jahnke)
162	Classification of Recession (Miller)
164	Consequences of Recession

165	Data Collection—Diagnosis—Prognosis
166	Data Collection—Examinations
167	General Patient Health History
167	Special Patient Health History
168	Classic Clinical Findings
169	Pocket Probing—Probing Depth, Clinical Attachment Loss
170	Pocket Probing—Periodontal Probes
171	Pocket Probing Depths—Interpretation of the Measured Values
172	Furcation Involvement—Horizontal and Vertical Furcation Invasion
174	Tooth Mobility—Functional Analysis
176	Radiography
178	Additional Diagnosis—Tests
179	Microbial Diagnosis—Test Methods
180	Microbial Pocket Diagnosis—Dark Field and Phase Contrast Microscopy
181	Microbial Pocket Diagnosis—Cultures
182	New Diagnostic Tests—Evaluation
183	Molecular Biological Tests
184	Bacterial Probe Test—Practical IAI PadoTest
185	DNA/RNA Probe Tests—IAI PadoTest 4·5
186	Immunological Tests—Antigen-Antibody Reactions
187	Enzymatic Bacterial Tests—BANA Test
188	Tests of the Host Response—Risks
189	Genetic Risk—Test for IL-1 Gene Polymorphism
190	IL-1 Gene Test—Technique, Evaluation
191	Risk Factor IL-1-positive Genotype—Additional Risk Factors
192	Poor Oral Hygiene as a Risk Factor—Bleeding on Probing (BOP)
193	Periodontal Risk Assessment—Individual Risk Profile
194	Diagnostic Data Collection—Periodontal Charting, I and II
195	Computer-Enhanced Charting—the Florida Probe System
196	Diagnosis
197	Prognosis
198	Prevention—Prophylaxis
198	Maintenance of Health and Prevention of Disease
198	Definition: Prevention—Prophylaxis
199	Prevention of Gingivitis and Periodontitis

Therapy

201	Treatment of Inflammatory Periodontal Diseases
202	Therapeutic Concepts and Techniques
203	Therapy—Problems
204	Periodontitis—Therapeutic Goals, Therapeutic Outcomes
205	Periodontal Wound Healing
206	Wound Healing and Regeneration—Possibilities
208	Treatment Planning—Sequence of Treatment
	• Pre-phase—Systemic Health, Oral Hygiene
	• Phase 1—Causal, Antimicrobial, Anti-infectious
	• Phase 2—Surgical, Corrective
	• Phase 3—Preventive, Anti-infectious, “Life Long”
210	General Course of Therapy—Individual Planning
211	Systemic Pre-phase
212	Evaluation—Can the Patient be Safely Treated?
213	Bacteremia—Endocarditis Prophylaxis
214	Dental Procedures Carrying the Risk of Bacteremia
215	Diabetes mellitus (DM)—Risk Factor for Periodontitis
216	Smoking—An Alterable Risk Factor

217	Emergency Treatment	281	FMT—"Full Mouth Therapy"
221	Phase 1 Therapy	282	FMT—Instrumental/Mechanical and ...
222	Case presentation—Motivation—Information	283	... Pharmacologic Therapy
223	Initial Treatment 1—	284	FMT—Radiographic Results
	Oral Hygiene by the Patient	285	FMT—Statistical/Numerical Results
224	Motivation—Gingival Bleeding	287	Medications
225	Plaque Disclosing Agents	287	Anti-Infectious Supportive Therapy—Antibiotics in Periodontitis Therapy
226	Toothbrushes	288	Decision-Making Criteria—When to Use Antibiotics?
228	Toothbrushing Technique	290	Antibiotics—Bacterial Sensitivity and Resistance
229	The Solo Technique—A Different Way to Brush Your Teeth	291	Systemic Versus Local (Topical) Antimicrobial Therapy
230	Electric Toothbrushes	292	Local (Topical) Antimicrobial Therapy—"Controlled Release Drugs" (CRD)
231	Interdental Hygiene	294	Host Response/Reaction—Modulating Substances
234	Dentifrice	295	Phase 2 Therapy—Corrective Phase: Summary—
235	Chemical Plaque Control—"Soft Chemo" Prevention		Periodontal and Mucogingival Surgery
236	Irrigators	296	Purposes and Goals of Periodontal Surgery
237	Oral Hygiene for Halitosis— Tongue Cleansing	297	Patient Selection
238	Possibilities, Successes and Limitations of Oral Hygiene	298	Factors that Influence the Treatment Result
239	Initial Treatment 1—	299	Methods of Periodontal Surgery and their Indications
	Creating Conditions that Enhance Oral Hygiene	300	Principles of Various Treatment Modalities—Advantages and Disadvantages
240	Supragingival Tooth Cleaning—Power-driven Instruments ...	302	Pre-operative Treatment—Post-operative Care
241	... and their Use	303	Furcation Involvement—Furcation Treatment
242	Supragingival Tooth Cleaning—Hand Instruments, Prophy Pastes ...	304	Therapeutic Possibilities for Various Cases
243	... and their Use	306	Furcation Involvement—Classifications
244	Creation of Conditions that Enhance Oral Hygiene—Removal of Iatrogenic Irritants	307	Furcation Involvement, F2, in the Maxilla—Furcationplasty
246	Correction of Iatrogenic Irritants—Bridge Pontics	309	Phase 3 Therapy
247	Removal of Natural Plaque-retentive Areas—		Periodontal Maintenance Therapy—Recall
	Odontoplasty of Grooves, Depressions, Irregularities	310	Recall in the Dental Practice—Recall Effect
248	Reduction of Natural Plaque-retentive Areas—Crowding:	311	Recall—Continuous Risk Management
	Morphologic Odontoplasty	312	The "Recall Hour"—Practical Periodontal Maintenance Therapy
249	Treatment of Plaque-elicited Gingivitis	314	Dental Hygienist and Dentist—The "Preventive Team"
252	Gingivitis Treatment	314	Auxiliary Personnel and Treatment Needs
253	Initial Treatment 2	315	Failures—Lack of Periodontal Maintenance Therapy
	"Closed", Subgingival Therapy	316	Negative Results of Therapy
253	Definitions	318	Hypersensitive Dentin
254	Non-Surgical, Anti-Infectious Therapy—Goals of Treatment	319	Dental Implants—Implant Therapy
255	Antimicrobial Therapy—Combating the Reservoir	320	Determinative Diagnostic Criteria
256	Root Planing—With or without Curettage?	321	Therapeutic Concepts—Therapeutic Results
257	Closed Therapy—Indication, Instrumentation	322	Recall—Management of Implant Problems
258	Hand Instruments for Scaling and Root Planing—Curettes	323	Geriatric Periodontology?
259	Powered Instruments for Debridement		The Periodontium in the Elderly
260	Gracey Curettes—Areas of Use	326	Age-related Changes—Influence Upon Treatment Planning
262	Hand Instruments for Special Problems—Curettes	327	Classification of Periodontal Diseases
263	Practical Scaling Technique with Gracey Curettes—Systematic Approach	327	Most Recent Re-Classification of Periodontal Diseases (1999)
268	Instrument Sharpening	332	Acknowledgments for Figures
269	Manual Sharpening of Hand Instruments	333	References
270	Automated Sharpening	334	Index
271	Subgingival Debridement—Closed Root Cleaning		
276	Closed Therapy in Quadrant 1 ...		
277	... and in the Rest of the Dentition		
278	Limitations of Closed Therapy		
280	Possibilities and Limitations of Closed Therapy
