Preface, Committees and Organisers

**Study into the Use of Signage on Exit Choice Behaviour in a Virtual Environment**  
A. Mc Daid  

**Structural Performance of Old Composite Floors Made up of Wrought Iron Joists and Masonry Vaults**  
N. Gattesco and L. Macorini  

**Durability of Composites Based on Asphalt**  
P. Mondschein, A. Konvalinka and P. Svoboda  

**Research of Prospective Materials for Military Protective Structures**  
S. Role, J. Křest’an, D. Kopkáně, J. Štoller and P. Maňas  

**On Computer Processing of Safety and Health Plans in the Construction Industry**  
Č. Jarský and P. Gacho  

**Seismic Enhancement of Masonry Buildings Strengthened through GFRP Reinforced Mortar Coating**  
N. Gattesco and I. Boem  

**3D Analysis of Bridges Changing Structural Systems – An Easy Design Tool**  
V. Křístek and L. Kadlec  

**Different Approaches to Determine of the Explosion Effect, of a Homemade Explosive, on the Structure**  
L. Figuli and Z. Zvaková  

**Damage Evolution of Concrete by Electrical Resistivity Monitoring Methods**  
S. Lu, L.N. Zhou and Z. Wang  

**On Modelling of Chosen Activities during a Construction**  
K. Svobodová, J. Čermák and Č. Jarský  

**Application of Cement Based Materials for Critical Infrastructure Protection**  
J. Štoller and P. Dvořák  

**Ecological Requirements for Concrete Construction**  
H. Kurth, K.H. Winter and V. Pospichal  

**Proposal of Subcontractors' Evaluation Methodology after the Realisation of the Construction Project**  
P. Mečár  

**Non-Destructive Examination of Cement Based Materials before and after Explosion Tests**  
J. Stoller, E. Zezulová and M. Foglar  

**Building Condition Record and Cost Estimation**  
H. Kurth, K.H. Winter and V. Pospichal
