Preface	v
Contributors	ix
1 Receptor Databases and Computational Websites for Ligand Binding Brinda K. Rana and Paul A. Insel	1
2 Identification of Orphan G Protein-Coupled Receptor Ligands Using FLIPR® Assays Nicola M. Robas and Mark D. Fidock	17
3 Quantitative Analysis of Orphan G Protein-Coupled Receptor mRNAs by TaqMan® Real-Time PCR: <i>G2A and GPR4</i> <i>Lysophospholipid Receptor Expression in Leukocytes</i> <i>and in a Rat Myocardial Infarction-Heart Failure Model</i> Stephen A. Douglas, Zhaohui Ao, Douglas G. Johns, Kristeen Maniscalco, Robert N. Willette, Lea Sarov-Blat, John P. Cogswell, Sheila Seepersaud, Paul Murdock, Klaudia M. Steplewski, and Lisa Patel	27
4 mRNA: <i>Detection by In Situ and Northern Hybridization</i> Alessandra P. Princivale, Rachel M. C. Parker, Terri J. Dover, and Nicholas M. Barnes	51
5 Radioligand-Binding and Molecular-Imaging Techniques for the Quantitative Analysis of Established and Emerging Orphan Receptor Systems Anthony P. Davenport and Rhoda E. Kuc	93
6 Measurement of Radioligand Binding by Scintillation Proximity Assay Jenny Berry and Molly Price-Jones	121
7 Autoradiography of Enzymes, Second Messenger Systems, and Ion Channels David A. Walsh and John Wharton	139
8 Immunocytochemical Localization of Receptors Using Light and Confocal Microscopy With Application to the Phenotypic Characterization of Knock-Out Mice Anthony P. Davenport and Rhoda E. Kuc	155
9 Live Cell Imaging of G Protein-Coupled Receptors Burkhard Wiesner, Michael Beyermann, and Alexander Oksche	173

10 Imaging and Characterization of Radioligands for Positron
Emission Tomography Using Quantitative Phosphor
Imaging Autoradiography
Peter Johnström and Anthony P. Davenport 203

11 Dynamic In Vivo Imaging of Receptors in Small Animals Using
Positron Emission Tomography
**Peter Johnström, Tim D. Fryer, Hugh K. Richards,
Olivier Barret, and Anthony P. Davenport 217**

Index 233
