Preface	v
Contributors	ix
1 Propagation of Wild-Type and Mutant SV40 James D. Tremblay, Kris F. Sachsenmeier, and James M. Pipas	1
2 Propagation and Assay of the JC Virus Christine K. Liu and Walter J. Atwood	9
3 Propagation and Assay of BK Virus Wendy A. Knowles	19
4 Molecular Methods for Identification and Genotyping of BK Virus Li Jin	33
5 Methods for Studying Interactions Between Simian Virus 40 T-Antigen and the Viral Origin of Replication Kodangattil R. Sreekumar, Brett A. Barbaro, Andrea E. Prack, and Peter A. Bullock	49
6 Cell-Free Transcription of SV40 Richard J. Kraus and Janet E. Mertz	69
7 Quantitation and Structural Analysis of SV40 RNAs Richard J. Kraus and Janet E. Mertz	87
8 Generation of Recombinant SV40 Vectors for Gene Transfer David S. Strayer, Maria Lamothe, Danlan Wei, Joseph Milano, and Rumi Kondo	103
9 Production of SV40 Proteins in Insect Cells and In Vitro Packaging of Virions and Pseudovirions Ziv Sandalon and Ariella Oppenheim	119
10 Using Retroviral Vectors to Express SV40 Tumor Antigens Van Cherington and Cynthia Higgins	129
11 Neoplastic Transformation Assays Leda Raptis and Adina Vultur	151
12 Methods to Assess Inhibition of Adipocyte Differentiation by SV40 Large T Antigen Cynthia Higgins and Van Cherington	165

13	SV40-Mediated Immortalization Mary Judith Tevethia and Harvey L. Ozer	185
14	Biology of <i>p53</i> and SV40 Large T Association Ximena Montano	201
15	Binding of SV40 Large T Antigen to the Retinoblastoma Susceptibility Gene Product and Related Proteins Juan Zalvide, James A. DeCaprio, and Hilde Stubdal	213
16	<i>In Situ</i> Electroporation for the Measurement of c-Ras Activation by SVLT Heather L. Brownell and Leda Raptis	219
17	Role of SV40 Small t in Cell Lysis, Transformation, and Signaling Ximena Montano and Kathy Rundell	229
18	Cytotoxic T Lymphocytes in SV40 Infections Todd D. Schell and Satvir S. Tevethia	243
19	Detection of SV40 DNA Sequences in Human Tissue John A. Lednicky and Robert L. Garcea	257
20	Guide to Techniques in Creating Transgenic Mouse Models Using SV40 T Antigen Ioanna G. Maroulakou and Robin C. Muise-Helmericks	269
