Part I Sudden Unexplained Death	1
1 Sudden Unexplained Death in the Community	3
Sumeet S. Chugh, Carmen Teodorescu, Audrey Evanado, and Kyndaron Reinier	
2 Sudden Infant Death Syndrome: Gene–Environment Interactions	7
Carl E. Hunt, and Fern R. Hauck	
Part II Arrhythmias and sudden cardiac death.	
The initial investigation	23
3 Unexplained Syncope	25
Carlos A. Morillo and Víctor Expósito-García	
4 Arrhythmias and Sudden Cardiac Death in Adult Congenital Heart Disease	37
Paul Khairy	
5 Endurance Sport Practice and Arrhythmias	57
Eduard Guasch and Lluís Mont	
6 Electrocardiograms Not to Miss	73
Andres Perez-Riera	
7 Sudden Cardiac Death in Forensic Pathology	91
Antonio Oliva and Vincenzo L. Pascali	
Part III Cardiac genetic syndromes	111
8 Genetic Studies	113
Marie-Pierre Dubé and John Rioux	
9 The Long QT Syndrome	121
Ramon Brugada and Oscar Campuzano	
10 Brugada Syndrome	131
Begoña Benito, Ramon Brugada, Josep Brugada, and Pedro Brugada	

11	Short QT Syndrome	149
	Christian Wolpert, Christian Veltmann, Rainer Schimpf, and Martin Borggrefe	
12	Catecholaminergic Polymorphic Ventricular Tachycardia	157
	M. Juhani Junttila, Olli Anttonen, and Heikki V. Huikuri	
13	Arrhythmogenic Right Ventricular Cardiomyopathy/Dysplasia	163
	Michela Bevilacqua, Federico Migliore, Cristina Basso, Gaetano Thiene, and Domenico Corrado,	
14	Atrial Fibrillation	173
	Oscar Campuzano and Ramon Brugada	
15	Dilated Cardiomyopathy	179
	Michelle S. C. Khoo, Luisa Mestroni, and Matthew R. G. Taylor	
16	Hypertrophic Cardiomyopathy	191
	A. J. Marian	
17	Genetic Lipoprotein Disorders and Cardiovascular Disease	203
	Khalid Alwaili, Khalid Alrasadi, Zari Dastani, Iulia Iatan, Zuhier Awan, and Jacques Genest	
18	A Systematic Approach to Marfan Syndrome and Hereditary Forms of Aortic Dilatation and Dissection	223
	Peter N. Robinson and Yskert von Kodolitsch	
19	Inherited Metabolic Diseases: Emphasis on Myocardial Disease and Arrhythmogenesis	233
	Eduardo Back Sternick	
20	Clinical Genetics in Congenital Heart Disease	259
	Georgia Sarquella Brugada and Gregor Andelfinger	
Part IV	Polygenic cardiovascular genetics	271
21	Pharmacogenomics	273
	Simon de Denus, Michael Phillips, and Jean-Claude Tardif	
22	Polygenic Studies in the Risk of Arrhythmias	289
	Moritz F. Sinner and Stefan Kääh	
23	The Genetic Challenge of Coronary Artery Disease	297
	Robert Roberts, George Wells, and Li Chen	

Part V Ethical, legal and Social implications	309
24 Psychological Implications of Genetic Investigations	311
April Manuel, Fern Brunger, and Kathy Hodgkinson	
25 Participation in Recreational Sports for Young Patients with Genetic Cardiovascular Diseases	317
Barry J. Maron	
26 Genetic Counseling in Cardiovascular Conditions	327
Laura Robb	
Index	337
