

Amazonian Dark Earths: Explorations in Space and Time

Bearbeitet von
Bruno Glaser, William I Woods

1. Auflage 2004. Buch. XIV, 216 S. Hardcover

ISBN 978 3 540 00754 8

Format (B x L): 15,5 x 23,5 cm

Gewicht: 556 g

Weitere Fachgebiete > Chemie, Biowissenschaften, Agrarwissenschaften >
Biowissenschaften allgemein > Terrestrische Ökologie

Zu Leseprobe

schnell und portofrei erhältlich bei

The logo for beck-shop.de features the text 'beck-shop.de' in a bold, red, sans-serif font. Above the 'i' in 'shop' are three red dots of increasing size. Below the main text, 'DIE FACHBUCHHANDLUNG' is written in a smaller, red, all-caps, sans-serif font.

DIE FACHBUCHHANDLUNG

Die Online-Fachbuchhandlung beck-shop.de ist spezialisiert auf Fachbücher, insbesondere Recht, Steuern und Wirtschaft. Im Sortiment finden Sie alle Medien (Bücher, Zeitschriften, CDs, eBooks, etc.) aller Verlage. Ergänzt wird das Programm durch Services wie Neuerscheinungsdienst oder Zusammenstellungen von Büchern zu Sonderpreisen. Der Shop führt mehr als 8 Millionen Produkte.

Contents

1	Towards an Understanding of Amazonian Dark Earths	1
	WILLIAM I. WOODS and BRUNO GLASER	
1.1	Anthrosols and Amazonia	1
1.2	Volume Overview	4
1.3	Importance of the Dark Earth Investigations	8
2	History, Current Knowledge and Future Perspectives of Geocological Research Concerning the Origin of Amazonian Anthropogenic Dark Earths (<i>Terra Preta</i>)	9
	BRUNO GLASER, WOLFGANG ZECH, and WILLIAM I. WOODS	
2.1	Introduction	9
2.1.1	The Paradox of the Existence of <i>Terra Preta</i>	9
2.1.2	Geogenic Versus Anthropogenic Formation of <i>Terra Preta</i>	10
2.2	History of Geocological <i>Terra Preta</i> Research	11
2.3	Current Geocological Knowledge About <i>Terra Preta</i>	12
2.3.1	Nutrient and Organic Matter Levels in <i>Terra Preta</i> Soils	12
2.3.2	Stability of the Organic Matter In <i>Terra Preta</i> Soils	12
2.4	Origin of <i>Terra Preta</i> Soils and Future Research Perspectives ...	13
2.4.1	Origin of Enhanced Organic Matter Levels	13
2.4.2	Origin of Enhanced Nutrient Levels	14
2.5	Conclusions	15
	References	15
3	Evolution of the Scientific Knowledge Regarding Archaeological Black Earths of Amazonia	19
	DIRSE CLARA KERN, MARCONDES LIMA DA COSTA, and FRANCISCO JUVENAL LIMA FRAZÃO	
3.1	Introduction	19
3.2	Hypotheses and Proposals for the Genesis of Archaeological Black Earth Soils	20
3.3	General Morphological and Chemical Characteristics of ABE Sites in Amazonia	22
3.3.1	Morphological Characteristics	22
3.3.2	Chemical Characteristics	22
3.4	Conclusions	26
	References	27

4	A Geographical Method for Anthrosol Characterization in Amazonia: Contributions to Method and Human Ecological Theory	29
	LAURA A. GERMAN	
4.1	Introduction	29
4.2	Environmental Background	30
4.2.1	Amazonian Ecosystems	30
4.2.2	Human Ecology of Amazonia	30
4.2.3	Amazonian Dark Earths	32
4.2.4	The Rio Negro	33
4.2.5	The History of Human Occupation on the Rio Negro	33
4.3	Material and Methods	35
4.3.1	Geographic area	35
4.3.2	Identification, Characterization, and Classification of Black Earth Sites	37
4.3.2.1	Site Size	38
4.3.2.2	Total Phosphorus	38
4.3.2.3	Pedological Analysis	38
4.3.3	Correlating Site Class with Access to Critical Resources	39
4.4	Results	40
4.4.1	Characterization and Classification of Black Earth Sites	40
4.4.2	Assessing Relative Access to Critical Resources	45
4.5	Conclusions	48
	References	50
5	Paleoriverine Features of the Amazon Lowlands: Human Use of the 'Arena Negra' Soils of Lake Charo, Northeastern Peru ...	53
	OLIVER T. COOMES	
5.1	Introduction	53
5.2	Site Location and Characteristics	54
5.3	Early Use of the <i>Yarinales</i>	57
5.4	Contemporary Agriculture	59
5.5	Non-Agricultural Resource Use	62
5.6	The Challenges of Future Use	62
5.7	Conclusions	64
	References	65
6	Dark Earth in the Upper Amazon	67
	THOMAS P. MYERS	
6.1	Introduction	67
6.2	The Formation of Dark Earth Sites	68
6.3	Dark Earth Sites and Settlement Density on the Central Amazon	73
6.4	Barrancoid Migrations Out of the Central Amazon	74
6.4.1	Barrancoid Sites on the Japurá and Caquetá Rivers	77

6.4.2	Barrancoid Sites on the Ucayali River	78
6.5	Polychrome Migrations Out of the Central Amazon	79
6.5.1	Polychrome Sites on the Japurá and Caquetá Rivers	80
6.5.2	Polychrome Sites on the Napo River	82
6.5.3	Polychrome Sites on the Ucayali River	83
6.6	Dark Earth and the Indigenous Peoples of the Japurá, Ucayali, and Napo Rivers	84
6.6.1	Indigenous Peoples of the Japurá/Caquetá	85
6.6.2	Indigenous Peoples of the Ucayali	86
6.6.2.1	Tutishcainyo Tradition	86
6.6.2.2	Yarinacocha Tradition	86
6.6.2.3	Pacacocha Tradition	87
6.6.2.4	Cumancaya Tradition	88
6.6.2.5	Local Traditions on the Upper Pachitea	89
6.6.3	Indigenous Peoples of the Napo River	90
6.7	Conclusions	90
	References	92
7	Organic Matter in Archaeological Black Earths and Yellow Latosol in the Caxiuanã, Amazonia, Brazil	95
	MARIA DE LOURDES PINHEIRO RUIVO, EWERTON DA SILVA CUNHA, and DIRSE CLARA KERN	
7.1	Introduction	95
7.2	Materials and Methods	96
7.3	Results	96
7.4	Discussion	109
	References	111
8	Sequential P Fractionation of Relict Anthropogenic Dark Earths of Amazonia	113
	JOHANNES LEHMANN, CARLA VABOSE CAMPOS, JEFERSON LUIZ VASCONSELOS DE MACÊDO and LAURA GERMAN	
8.1	Introduction	113
8.2	Materials and Methods	114
8.2.1	Study Sites	114
8.2.2	Soil P Fractionation and Analysis	115
8.3	Results and Discussion	117
8.3.1	Extraction Efficiency by Sequential Fractionation	117
8.3.2	Phosphorus Distribution in Soil Pools of Anthropogenic Dark Earths in Central Amazonia	118
8.3.3	Sources of P in Pre-Colombian Anthrosols	120
8.4	Conclusions	122
	References	122

9	The Timing of <i>Terra Preta</i> Formation in the Central Amazon: Archaeological Data from Three Sites	125
	EDUARDO GOÉS NEVES, JAMES B. PETERSEN, ROBERT N. BARTONE, and MICHAEL J. HECKENBERGER	
9.1	Introduction	125
9.2	The Osvaldo Site	126
9.3	The Hatahara Site	129
9.4	The Lago Grande Site	131
9.5	Conclusions	132
	References	133
10	Semi-Intensive Pre-European Cultivation and the Origins of Anthropogenic Dark Earths in Amazonia	135
	WILLIAM M. DENEVAN	
10.1	Introduction	135
10.2	Potential Origin of <i>Terra Mulata</i>	136
10.2.1	Frequent Burning of Cleared Short Fallow	136
10.2.2	In-field Burning	137
10.2.3	Organic Amendments	139
10.2.4	Permanent Settlement and Dark Earths	140
10.3	Conclusions	141
	References	141
11	Identifying the Pre-Columbian Anthropogenic Input on Present Soil Properties of Amazonian Dark Earths (<i>Terra Preta</i>)	145
	BRUNO GLASER, GEORG GUGGENBERGER, and WOLFGANG ZECH	
11.1	Introduction	145
11.2	Materials and Methods	146
11.2.1	Site and Soil Description	146
11.2.2	Methods	147
11.2.3	Statistical Analysis	148
11.3	Results and Discussion	148
11.3.1	Soil Classification	148
11.3.2	Soil Physical Parameters	149
11.3.3	Nutrient Status	149
11.3.4	Stocks and Texture Dependence of TOC and N	154
11.4	Conclusions	156
	References	157
12	Use of Space and Formation of <i>Terra Preta</i>: The Asurini do Xingu Case Study	159
	FABÍOLA ANDRÉA SILVA and LILIAN REBELLATO	
12.1	Introduction	159
12.2	The Asurini do Xingu and the Use of Space in the Kuatinemu Village	159

12.3	Spatial Distribution and Fluxes of Material Used by the Asurini do Xingu in the Kuatinemu Village and Hypothesis on <i>Terra Preta</i> Formation	161
12.4	Future Study to Investigate Recent <i>Terra Preta</i> Formation by the Asurini do Xingu in the Kuatinemu Village	166
12.5	Final Considerations	167
	References	167
13	Research on Anthropogenic Dark Earth Soils. Could It Be a Solution for Sustainable Agricultural Development in the Amazon?	169
	BEÁTA EMÖKE MADARI, WIM G. SOMBROEK, and WILLIAM I. WOODS	
13.1	Introduction	169
13.2	The Importance of <i>Terra Preta</i> Research	170
13.2.1	What We Know and Do Not Know About the Formation and Properties of ADE Soils	172
13.3	Networking Activities in <i>Terra Preta</i> Research	173
13.3.1	Activities of the Multi-Institutional and Multi-Disciplinary Cooperation of the TPN Group	174
13.3.2	Institutions Within the TPN Group	174
13.3.3	The Coordinating Committees and Homepages of the TPN Group	175
13.4	Approaches to <i>Terra Preta</i> Research for Agronomic Applications	175
13.4.1	Fundamental Questions for the TPN Project	176
13.4.2	Specific Objectives of the TPN Project and Their Justification ..	177
13.5	Expected Results of the Cooperation	179
	References	180
14	Slash and Char: An Alternative to Slash and Burn Practiced in the Amazon Basin	183
	CHRISTOPH STEINER, WENCESLAU GERALDES TEIXEIRA, and WOLFGANG ZECH	
14.1	Introduction	183
14.2	Carbon Emissions in Slash and Burn Agriculture	184
14.3	Black Carbon in Soil – <i>Terra preta do Índio</i>	185
14.4	Slash and Char as an Alternative to Slash and Burn	185
14.5	Alternative Slash and Char in Practice	186
14.6	Advantages of Slash and Char	189
14.7	Slash and Char Research Activities	191
14.8	Conclusions	191
	References	192

15	Microbial Response to Charcoal Amendments of Highly Weathered Soils and Amazonian Dark Earths in Central Amazonia – Preliminary Results	195
	CHRISTOPH STEINER, WENCESLAU G. TEIXEIRA, JOHANNES LEHMANN, and WOLFGANG ZECH	
15.1	Introduction	195
15.2	Material and Methods	197
15.2.1	Study Design	197
15.2.2	Soil Sampling and Analyses	200
15.2.3	Statistical Analyses	202
15.3	Results and Discussion	202
15.4	Characteristics of ADE and Forest Soils	210
	References	211
