

Contents

Section 1

Part 1 Genetics and Gene Therapy

- 1 Oligonucleotide Therapeutics to Treat Dyslipoproteinemia and Atherosclerosis 5
Ioannis Papaioannou and James S. Owen
- 2 Gene Delivery to Cardiovascular Tissue 25
Rachel Masson, Stuart A. Nicklin, and Andrew H. Baker

Part 2 Animal Models to Study Vascular Disease

- 3 Animal Models of Scleroderma: From Cellular and Molecular Mechanisms to Novel Antifibrotic Strategies 57
Mirko Manetti, Elena Neumann, Oliver Distler, and Ulf Müller-Ladner
- 4 Animal Models of Atherosclerosis 77
Christopher Jackson, Ulrike Benbow, Andrew Bond, Deborah Galley, and Claire Schwartz
- 5 Animal Models of the Endothelin System 93
Karoline von Websky, Susi Heiden, Thiemo Pfab, and Berthold Hofer

Part 3 Molecules and Mediators and Therapeutic Applications

- 6 Endothelin-1 and Systemic Sclerosis 105
Jeremy D. Pearson, Xu Shi-wen, Sarah L. Howat, Christopher P. Denton, and David J. Abraham

7	The Role of the Homeodomain Transcription Factor Nkx2-5 in the Cardiovascular System.....	113
	<i>Markella Ponticos</i>	
8	Cell Therapy for Cardiovascular Disease	131
	<i>Jonathan R. Murrow, Saurabh S. Dhawan, and Arshed A. Quyyumi</i>	
9	Tissue-Engineered Vascular Substitutes: New Models Toward Successful Small Diameter Grafts	153
	<i>Pedro D'Orléans-Juste, Dan Lacroix, Lucie Germain, and François A. Auger</i>	
10	Role of Perivascular Adipose Tissue in Vascular Function	175
	<i>Maria S. Fernández-Alfonso, Marta Gil-Ortega, and Beatriz Somoza</i>	
11	Endothelium: Dysfunction and Repair.....	187
	<i>Muhiddin A. Ozkor, Jonathan R. Murrow, and Arshed A. Quyyumi</i>	

Section 2

Part 1 Clinical Aspects of Vascular Biology

12	Chronic Thromboembolic Pulmonary Hypertension.....	215
	<i>Joanna Pepke-Zaba</i>	
13	Pathophysiology of Chronic Thromboembolic Pulmonary Hypertension (CTEPH).....	225
	<i>Jay Suntharalingam and Nicholas W. Morrell</i>	
14	Surgical Management of Chronic Thromboembolic Pulmonary Hypertension (CTEPH).....	233
	<i>David P. Jenkins</i>	
15	Imaging in Acute and Chronic Pulmonary Thromboembolic Disease	247
	<i>Charlotte Cash and Joanne Cleverley</i>	

Part 2 Vascular Disease in Connective Tissue Diseases

16	PAH in CTD – Clinical Trials Criteria and Performance.....	275
	<i>James R. Seibold</i>	
17	Disease Progression in Systemic Sclerosis Associated Pulmonary Arterial Hypertension	289
	<i>Robin Condliffe</i>	

18	Connective Tissue Disease Associated Pulmonary Arterial Hypertension: Special Cases?.....	305
	<i>Gerry Coghlan</i>	
19	Advances in Vascular Medicine: <i>Vascular Disease in Scleroderma</i>	315
	<i>Anna Nuttall, Emma Derrett-Smith, and Richard Stratton</i>	

Part 3 Cardiovascular Disease

20	Coronary Heart Disease in Women.....	337
	<i>Nanette K. Wenger, Leslee J. Shaw, and Viola Vaccarino</i>	
21	Recent Strategies to Improve Graft Performance in Patients Undergoing Coronary Artery Bypass Surgery. Are Best Results Achieved by Improved Surgical Techniques of Graft Preparation?.....	371
	<i>Rosa Baron, Michael R. Dashwood, Mikael Arbeus, Derek Filbey, and Domingos S.R. Souza</i>	
22	Cardiovascular Risk Prediction by Measurement of Arterial Elastic Properties and Wall Thickness.....	399
	<i>Konstantinos Aznaouridis, Saurabh S. Dhawan, and Arshed A. Quyyumi</i>	
23	The Metabolic Syndrome.....	423
	<i>Benjamin D. Mackie, David G. Harrison, and A. Maziar Zafari</i>	
	Index	447
