

Endoscopic Mitral Valve Surgery

Handbook of Minimal-invasive Cardiac Surgery

Bearbeitet von
Ralf Krakor

1. Auflage 2012. Buch. X, 145 S. Hardcover

ISBN 978 3 11 025422 8

Format (B x L): 17 x 24 cm

Gewicht: 423 g

[Weitere Fachgebiete > Medizin > Chirurgie > Herz- & Thoraxchirurgie](#)

DIE FACHBUCHHANDLUNG

Die Online-Fachbuchhandlung beck-shop.de ist spezialisiert auf Fachbücher, insbesondere Recht, Steuern und Wirtschaft. Im Sortiment finden Sie alle Medien (Bücher, Zeitschriften, CDs, eBooks, etc.) aller Verlage. Ergänzt wird das Programm durch Services wie Neuerscheinungsdienst oder Zusammenstellungen von Büchern zu Sonderpreisen. Der Shop führt mehr als 8 Millionen Produkte.

Contents

Preface

ix

1 Introduction	1
1.1 General thoughts on endoscopic surgery	1
1.1.1 The philosophy	1
<i>The ideas behind it</i>	1
<i>Complexity</i>	2
<i>Experience</i>	2
<i>Valve repair – frequency of valve replacements</i>	3
1.1.2 The team	3
1.1.3 Holding out	4
1.2 How to start an endoscopic program	5
1.2.1 Starting conditions for endoscopic mitral valve surgery	6
1.2.2 Patient-related arguments	7
<i>Prognosis</i>	7
<i>Need for blood transfusion</i>	9
<i>Wound-healing disturbances</i>	9
<i>Cosmetic reason</i>	10
1.2.3 Hospital-related arguments	11
<i>Marketing</i>	11
<i>Economic reasons</i>	11
1.2.4 Patient selection	13
1.2.5 Teaching course	15
1.2.6 Starter kit for endoscopic mitral valve surgery	15
1.2.7 Overview	16
2 Anesthesiology and pain management	19
2.1 Intubation and ventilation	19
2.2 Pain management	19
3 Technical prerequisites	23
3.1 Cannulas and extracorporeal circulation	23
3.1.1 Arterial cannulas (retrograde perfusion)	23
3.1.2 Arterial cannulas (antegrade perfusion)	24
3.1.3 Venous cannulas	25
3.1.4 Extracorporeal circulation	28
3.2 Accessories	28
3.2.1 Soft-tissue retractor	28
3.2.2 Arms for videoscopic camera and atrial retractor	29

3.3 Instruments	30
3.3.1 Atrial hook	33
3.4 Sutures	33
4 Preparations	37
4.1 Arterial and venous cannulation	37
4.1.1 Femoral vessel cannulation after preparation	37
4.1.2 Direct cannulation of the ascending aorta	40
4.2 Mini-thoracotomy	43
4.3 Ports	47
4.4 Videoscopy	48
4.4.1 The wrinkle	49
4.4.2 The diameter	50
4.4.3 The monitor picture	50
4.4.4 Additional helpful details	50
4.5 Cardioplegia	51
4.5.1 Use of cardioplegia	51
4.5.2 Operations under fibrillation	55
4.6 Aortic clamping	56
4.6.1 Endoclamping	56
4.6.2 The Chitwood technique	57
4.6.3 Complications	59
5 Valve repair techniques	61
5.1 Quadrangular resection	61
5.1.1 Pathological anatomy	61
5.1.2 Theoretical remarks	62
5.1.3 Practical realization	62
<i>Identifying the prolapse</i>	62
<i>Cutting out of the prolapse</i>	63
<i>Narrowing of the annulus</i>	65
<i>Closure of the gap</i>	66
5.2 Triangular resection	68
5.2.1 Pathological anatomy	68
5.2.2 Theoretical remarks	69
5.2.3 Practical realization	69
<i>Identifying the prolapse</i>	69
<i>Cutting out the prolapse</i>	70
<i>Narrowing of the annulus</i>	70
<i>Closure of the gap</i>	71
5.3 Sliding technique	71
5.3.1 Pathological anatomy	71
5.3.2 Theoretical remarks	72
5.3.3 Practical realization	73
<i>Identifying the diseased parts</i>	73

<i>Cutting out of diseased part(s)</i>	74
<i>Retiring the leaflet</i>	76
<i>Narrowing of the annulus</i>	77
<i>Sliding and refixation</i>	77
5.4 Neochords – preformed loops	78
5.4.1 Pathological anatomy	79
5.4.2 Theoretical remarks	81
5.4.3 Practical realization	83
<i>Identifying the diseased parts</i>	83
<i>Measurement of the chordae length</i>	83
<i>Implantation of preformed loops</i>	85
5.5 Neochords – flexible length	85
5.5.1 Pathological anatomy	86
5.5.2 Theoretical remarks	86
5.5.3 Practical realization	87
<i>Identifying the diseased parts</i>	87
<i>Measurement of the chorda length</i>	87
<i>Implantation of flexible chords</i>	87
5.6 Artificial rings	91
5.6.1 Theoretical remarks	91
5.6.2 Implantation technique	92
5.6.3 Complications	94
5.7 Emergency exit	95
5.7.1 Theoretical remarks	95
5.7.2 Practical performing	96
6 Tips and tricks	99
6.1 Perfusion's challenge	99
6.2 Diaphragm's obesity	100
6.3 View's hurdles	101
6.4 Instruments' versatility	103
6.5 The knot pusher's independent existence	106
6.6 Managing bleeding	109
6.6.1 Bleeding of ascending aorta	109
6.6.2 Bleeding of the left atrial incision	110
6.6.3 Bleeding of the left atrial appendage	110
6.6.4 Injury of the right pulmonary main stem	110
6.6.5 Injury of the right mammary artery	111
6.6.6 Bleeding of the intercostal artery	111
7 Additional procedures	113
7.1 Left atrial ablation	113
7.1.1 Endocardial ablation	113
7.1.2 Epicardial ablation – pulmonary veins clamp technique	115
7.1.3 Epicardial ablation – box lesion with Cobra Adhere XL®	116

<i>Technical background of Cobra Adhere XL®</i>	117
<i>Heat sink effect</i>	118
<i>Practical use of Cobra Adhere XL®</i>	119
7.2 Management of the left atrial appendage	121
7.3 Tricuspid valve repair	125
7.3.1 Access to the tricuspid valve	126
7.3.2 Repair technique	128
7.4 Closure of the ASD	128
7.4.1 Technical considerations	129
7.4.2 Closure of the ASD	129
7.5 Excision of left atrial tumors	131
7.5.1 Theoretical remarks	131
7.5.2 Practical performing	132
Index	133
